

11 OF 13 AVAILABLE PANELS ARE CLIA WAIVED

The most comprehensive CLIA waived menu available.

Comprehensive Metabolic Panel

ALB, ALP, ALT, AST, BUN, Ca, Cl⁻, CRE, GLU, K⁺, Na⁺, TBIL, tCO₂, TP

Basic Metabolic Panel

BUN, Ca, Cl⁻, CRE, GLU, K⁺, Na⁺, tCO₂

Lipid Panel

CHOL, CHOL/HDL*, HDL, LDL*, TRIG, VLDL* *Calculated

Lipid Panel Plus

ALT, AST, CHOL, CHOL/HDL*, GLU, HDL, LDL*, TRIG, VLDL*

Liver Panel Plus

ALB, ALP, ALT, AMY, AST, GGT, TBIL, TP

General Chemistry 13

ALB, ALP, ALT, AMY, AST, BUN, Ca, CRE, GGT, GLU, TBIL, TP, UA

General Chemistry 6

ALT, AST, BUN, CRE, GGT, GLU

Electrolyte Panel

Cl⁻, K⁺, Na⁺, tCO₂

Kidney Check

BUN, CRE

MetLyte 8 Panel

BUN, CK, Cl⁻, CRE, GLU, K⁺, Na⁺, tCO₂

Renal Function Panel

ALB, BUN, Ca, Cl⁻, CRE, GLU, K⁺, Na⁺, PHOS, tCO₂

Basic Metabolic Panel Plus

BUN, Ca, Cl⁻, CRE, GLU, K⁺, Na⁺, tCO₂, Mg, Lactate Dehydrogenase

Hepatic Function Panel

ALB, ALP, ALT, AST, DBIL, TBIL, TP

COMPREHENSIVE CLIA WAIVED CHEMISTRY
FOR HEALTH SCREENING OPERATIONS

piccolo *xpress*
chemistry analyzer

ABAXIS

Health Screening Just Became Comprehensive!

piccolo *xpress*[™]
chemistry analyzer

With the Piccolo Xpress[™] chemistry analyzer, you can now conduct comprehensive CLIA Waived screenings on-site in minutes.

Health screeners, wellness and occupational health organizations traditionally rely on limited screening capabilities at the point-of-care. Lipid and glucose screenings alone do little to provide the complete health picture. And, managing a multitude of samples to be screened at the lab, then following up with patients afterward is an ineffective, time-consuming and often expensive process.

With the Piccolo Xpress chemistry analyzer in your arsenal, patients can now have on-site laboratory results for critical functions such as:

- Liver
- Intestine
- Parathyroid
- Renal
- Pancreas
- Bone Marrow
- Metabolic
- Respiratory
- Jaundice
- Cardiovascular
- Hepatic
- Shock
- Gall bladder
- Diabetic
- and much more

Three simple steps is all it takes.

Taking health screening to a new level

Health screening operations play a vital role in promoting wellness and early detection of health problems. By adding the Piccolo Xpress chemistry analyzer, health screening operations can:

- Conduct comprehensive labs on-site
- Reduce costs while increasing value of offering
- Gain a competitive advantage over rival providers
- Maximize operational efficiency and effectiveness
- Increase patient and customer satisfaction from complete service

Exactly what the doctor ordered

When a physician performs a well-person check-up, they order the same battery of tests that are available through the Piccolo Xpress. The Piccolo allows health screening clinicians to:

- Deploy a comprehensive CLIA waived menu of tests
- Receive lab-accurate results in 10-12 minutes
- Provide physicians with complete, timely and accurate health analysis in advance of appointments
- Employ advanced technology that's easy to use
- Utilize only 100 microliters of whole blood
- Help patients improve overall health and wellness

Designed with Health Screeners in mind

The Piccolo Xpress chemistry analyzer is perfectly suited for health screening operations. Its small and compact size fits nicely in tight spaces. Simple 3-step operation makes it easy for screeners to obtain accurate results. And, it's fast - taking only 30 seconds to prepare a sample and 10-12 minutes for a printed result. Walk-away operation means the Piccolo is self-sufficient and frees the screener's time to perform other patient examinations.

Exceptionally Easy

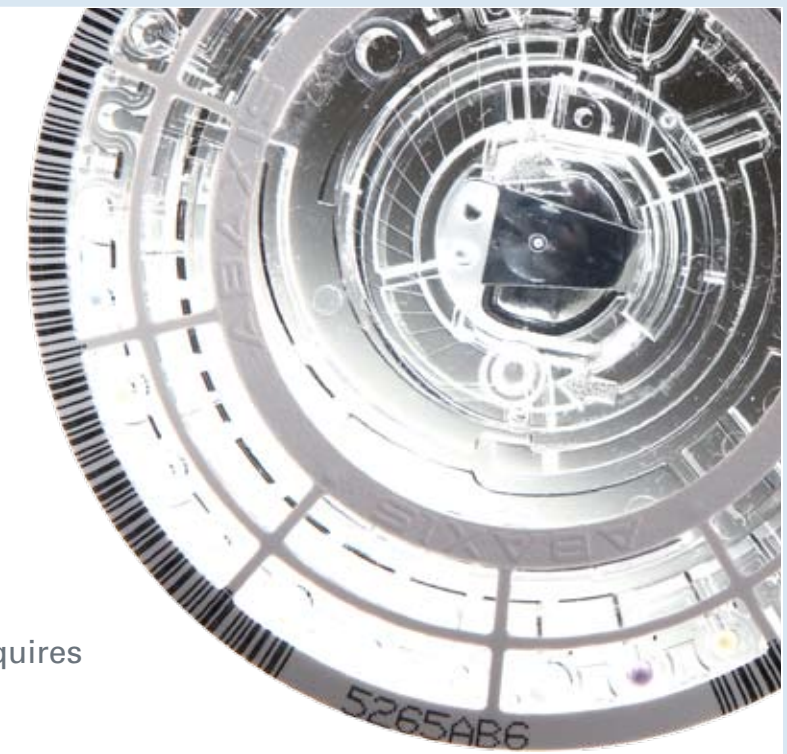

The Piccolo Xpress's fully automated system requires no special operating skills

- 0.1cc whole blood, serum or plasma
- Self calibrates with every test run
- Built-in iQC[™] eliminates daily control testing and meets CLIA and CLSI guidelines
- Full-color touch screen with intuitive user interface
- Results are printed on a self-adhesive hard copy or via electronic transfer, allowing immediate access to critical information at the point-of-care
- Large memory capacity stores up to 5000 patient records
- Externally accessible bi-directional input/output and USB data transfer technology
- CLIA waived reagent discs eliminate the need for moderately complex lab requirements

Exceptionally Accurate

Advanced technology ensures sound results

- Centrifugal action mixes the reagents and sample in a disposable self-contained disc – reducing procedural errors
- Accuracy and precision comparable to reference grade laboratory analyzers
- iQC[™] system performs continuous quality control checks on every run
- Every self-contained reagent disc is barcoded for automatic self-calibration
