## VetScan Chemistry Profiles

VetScan profiles are conveniently packaged as single-use plastic rotors. Each reagent rotor contains a diluent and all the profiles necessary to perform a complete multi-chemistry blood analysis.

[View our chart of VetScan Profiles](#)

**Available profiles include:**

Canine Wellness Profile including Heartworm

### **Canine Wellness Profile including Heartworm**

Ideal for performing a comprehensive wellness chemistry panel and testing for heartworm antigen simultaneously, running wellness exams on canines greater than 7 months of age, implementing a comprehensive wellness program or streamlining existing wellness programs while increasing profit and cost savings and reducing technician time.

This rotor provides the following 12 parameters – ALB, ALP, ALT, BUN, CA, CHW, CRE, GLOB, GLU, PHOS, TBIL, TP

Available in 24 count packages

\*Available only for the VS2

Comprehensive Diagnostic Profile

### **Comprehensive Diagnostic Profile**

Ideal for providing complete chemistry and electrolyte analysis for pre-anesthetic, general health, ill patient, geriatric and wellness testing.

This rotor provides the following 14 parameters – ALB, ALP, ALT, AMY, BUN, CA, CRE, GLOB, GLU, K<sup>+</sup>, NA<sup>+</sup>, PHOS, TBIL, TP

Available in 12, 24, 48 and 96 count packages

Prep Profile II

### **Prep Profile II**

Basic health screen for pre-anesthetic evaluation and testing minimal values for baselines of young, health patients or recheck profile for some disease states.

This rotor provides the following 6 parameters – ALP, ALT, BUN, CRE, GLU, TP

Available in 12, 24 and 48 count packages

Critical Care Plus

### **Critical Care Plus**

Ideal for serial testing, rechecks, fluid therapy and monitoring hospitalized patients.

This rotor provides the following 8 parameters – ALT, BUN, CL<sup>-</sup>, CRE, GLU, K<sup>+</sup>, NA<sup>+</sup>, tCO<sub>2</sub>

Available in 12 count packages

T4/Cholesterol

### **T4/Cholesterol**

Ideal for routine screening of hypothyroidism in dogs and diagnostic for hyperthyroidism in cats, titrating and monitoring patients on thyroid hormone replacement therapy or patients being treated for hyperthyroid disease.

This rotor provides the following 2 parameters – T<sub>4</sub>, CHOL

Available in 12, 24 and 48 count packages

Mammalian Liver Profile

### **Mammalian Liver Profile**

Ideal for obtaining baseline liver values, diagnosis and monitoring of hepatic disease and monitoring hepatic function while administering nonsteroidal anti-inflammatory drugs (NSAIDs) or other potentially hepatotoxic medications.

This rotor provides the following 8 parameters – ALB, ALP, ALT, BA, BUN, CHOL, GGT, TBIL

Available in 12 count packages

Equine Profile Plus

### **Equine Profile Plus**

Ideal for routine equine checkups, wellness testing, ill patient diagnostics and prepurchase examinations for equine hospitals, ambulatory practitioners, critical care units and mixed animal hospitals.

This rotor provides the following 14 parameters – ALB, AST, BUN, CA, CK, CRE, GGT, GLOB, GLU, K<sup>+</sup>, NA<sup>+</sup>, TBIL, tCO<sub>2</sub>, TP

Available in 12 and 24 count packages

Avian/Reptilian Profile Plus

### **Avian/Reptilian Profile Plus**

Ideal for measuring analytes that represent the most important areas of concern in avian and reptilian patients.

This rotor provides the following 12 parameters – ALB, AST, BA, CA, CK, GLOB, GLU, K<sup>+</sup>, NA<sup>+</sup>, PHOS, TP, UA

Available in 12 count packages

Large Animal Profile

### **Large Animal Profile**

Ideal for herd health assessment and monitoring, prognostic indicator and diagnostic tool for beef and dairy cattle.

This rotor provides the following 11 parameters – ALB, ALP, AST, BUN, CA, CK, GGT, GLOB, MG, PHOS, TP

Available in 12 count packages
