EXCEPTIONALLY FAST

From sample to complete panel results in 3 simple steps and approximately 12 minutes

1 / Add sample

2 / Insert disc

3 / Read results

EXCEPTIONALLY EASY

Fully automated system requires no special operating skills

- 0.1cc whole blood, serum or plasma
- Self calibrates with every test run - no manual data entry
- Full-color touch screen with intuitive user interface
- Results are printed on a self-adhesive hard copy or via electronic transfer, allowing immediate access to critical information at the point-of-care
- Large memory capacity stores up to 5000 patient records
- Externally accessible bi-directional USB data transfer technology facilitates EMR connectivity

EXCEPTIONALLY ACCURATE

Advanced technology ensures sound results

- Centrifugal action mixes the reagents and sample in a disposable self-contained disc – reducing procedural errors
- Accuracy and precision comparable to larger, more expensive laboratory analyzers
- iQC™ system performs continuous quality control checks on every run, eliminating daily control testing requirements
- Every self-contained reagent disc is barcoded for automatic self-calibration
